

SI3000

SLIMMING

The SI3000 is a technologically advanced apparatus for passive slimming. The treatment takes place in an entirely pleasurable way and the results are surprising. The computerised vibrating massage, chromatherapy*, aromatherapy* and new generation audio-video system, which includes TV, CD, DVD, DVX, MP3, make the SI3000 a multifunctional apparatus that can be used for well-being and relaxation treatments as well as a complement to other beauty treatments (mud treatments, peeling, product marketing, etc).

* optional
